KYOWA KIRIN International plc

Co-ordinating Investigators

Dr Andrew Davies

Dr Jan Tack

Principal Objective

The objective of this study is to assess the **safety and efficacy of Naloxegol** in a real world setting in cancer patients.

In order to meet the objective, we need to **emphasize the importance** of :

- Including patients who complete the 4 weeks treatment.
- Including patients who be able to complete the Patient’s diary and required scales.
- Use Naloxegol according to SmPC, attending to its contraindications.

□

- Recruitment objective: 315 patients
- Number of patients: 170 patients
- Screening Failure: 13 patients
- End of recruitment: **January 31st**

We would appreciate your collaboration **resolving the eCRF queries before September 10th.**
